AS AN AUTOMATION REPAIR SPECIALIST, WE ARE THE FIRST AUTOMATION REPAIR SUPPLIER TO BECOME ISO-9001 REGISTERED.

Our core belief is providing quality repairs at a competitive price. We achieve this high standard of quality by developing in-house system test capabilities to test each unit to ensure it meets or exceeds OEM specifications. After the unit is repaired it is tested in a closed loop system to simulate how the unit will operate when placed back into service. Each repaired unit comes with a detailed failure analysis report letting you know why the unit failed and how the unit was repaired and tested. We also provide a one year in-service warranty.

OUR REPAIR CAPABILITIES:

- AC/DC SERVO MOTORS
- AIR PUMPS
- AMPLIFIERS
- BALLSCREWS
- BRAKES
- BLOWERS
- CNC MACHINE CONTROLS
- CRT MONITORS
