Rendering of A Table

Before Rebuild

After Rebuild

A and B Axis Hofmann Tables

- **We are a cost effective solution** and the tables never need to leave North America.
- Precision grinding jet engine components for a world class manufacturing.
- A axis rotates the work-piece while it is being ground by the main spindle.
- B axis rotates while the A axis table is rotating the part for contour grinding.
- The A and B axis tables are in a very corrosive environment due to the water base coolants that are being used. Replacing the components with OEM parts is critical.

Rendering of B Table

Before Rebuild

After Rebuild

- Once all parts are received from the OEM the turn-around time can be made in 2-3 weeks.
- The tables receive a complete overhaul and the replacement parts are supplied from the OEM.
- Tables are tested to OEM specifications.

ALL UNITS ARE SYSTEM TESTED
